

IMA SpA Presents MAXIMA, CAD System

MAXIMA is one of the most complete suites of modelling programmes on the market. Thanks to the graphic interface and the functions built on the model of the most popular design programs (e.g. Autocad), it guarantees a very intuitive use with extremely short learning times for the new operator.

The graphic interface is customisable, as are the Shortcuts that allow a model to be created from scratch in just a few seconds. In addition, the importers of proprietary files from some of the most common cad systems make the MAXIMA system decidedly compatible and versatile. Another aspect that makes Maxima unique is the sophisticated automatic nesting algorithm that guarantees very precise efficiency rates with matching times under a minute.

Finally, MTM is the program that allows the automation of made-to-measure garments. Made-to-measure tailoring consists of several complex processing steps. Today, it is possible to collect in a database all the personal information, measurements, patterns and orders of countless customers, integrate this information with PLM or ERP and automate the production of the garment, from design to positioning and cutting.

All this is possible with a single program thanks to MAXIMA, which interfaces with our automatic cutters creating a perfectly optimised workflow.

Circle # 00 on Reader Service Card

A large vertical poster celebrating IMA's 45th anniversary. At the top, it features the IMA logo, a '45' graphic, and a '40th Industry' logo. The main headline reads '#45years as protagonists'. Below this, a large, detailed image of a vintage microphone is shown, with labels pointing to various parts: 'Tables', 'Design & Development', 'Labellers', 'Loaders', 'Automatic Cutters', 'Spreaders', and 'Syncro Cutting Room'. At the bottom, a circular logo reads 'lamIMA Always Ahead'. The event details are listed: 'CISMA 2022 27-30 APRIL 2022 NINGBO INTERNATIONAL CONFERENCE & EXHIBITION CENTRE, - NINGBO - CHINA IMA BOOTH: HALL 3 NR. E36'. The bottom section includes a 'LIVE WEBINARS 2022' banner, a QR code, and logos for Google Play and the App Store. The footer features the IMA logo, the website 'www.imaitaly.it', and the date 'J. S. N. International, March 2022'.
