

IMA at BTKG 2026 in Dhaka, Bangladesh

Bangladesh has always been our key market, and despite these challenging times, we couldn't miss this trade show, which has consistently brought us great satisfaction over the years.

This new edition of BTKG2026 saw a strong turnout, offering us the opportunity to meet both long-standing customers and potential new partners, once again confirming the strong interest in IMA's cutting-edge cutting room solutions.

Most visitors came from Bangladesh, with very few from other countries, but honestly, this is a local trade show where customers have always come to place orders and take the opportunity to obtain special deals. And of course, we are delighted to accommodate them and meet them for a convivial moment.

This market continues to provide us with the best results in terms of orders and revenue. Our local presence and our partner IMA FAR EAST also play a key role: a highly organized, effective, and efficient team that guarantees excellent after-sales service and actively contributes to customer loyalty.

Therefore, we would like to thank all our customers and potential customers who visited our booth for the interesting discussions about IMA technology. See you soon at the next show, and in the meantime, let's stay in touch!
